Setting the Standard ON THE GULF COAST

Foundation plans are a **MUST** if you expect to pull a permit. Valor provides these plans at **NO COST** to you.

Valor provides a **NICE** finished look on the gabled ends of our buildings by providing Peak Boxes.

Valor provides insulation with a reinforced vinyl backing that **PREVENTS** insulation tears.

Where the purlin stops at the corner column, Valor Steel Buildings puts a sheeting angle in the corner so that the panel is **COMPLETELY** screwed off.

Valor installs enclosures at the gable **AND** eave ends of the building. This insures that your building is **AIR TIGHT**.

Look at your quote **CAREFULLY**. Taxes are **ALWAYS** included in a Valor Steel Building quote. Don't be fooled into believing that because you buy a building out-of-state that you are not responsible for the taxes on that building.

At Valor Steel, you have a **CHOICE** of a flat base ridge cap **OR** a fitted die formed ridge cap.

Freight is another line item left off of quotes. The reason is that you will be **HIT** with a big freight charge after you've bought your building & it is ready to ship. Buy from Valor Steel... we are **LOCAL!**

Setting the Standard ON THE GULF COAST

Are you **READY** to buy? Let Valor come talk to you about your contract, color choices, accessory locations, building location, set backs, permit requirements, & job scheduling.

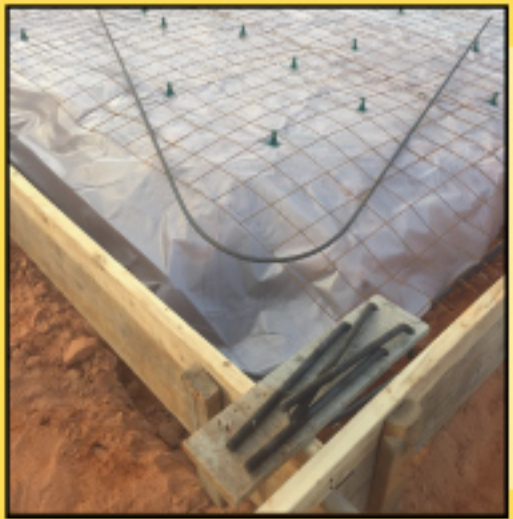

Completed? Your Valor project is **NOT** completed until final inspections have been done, warranties have been filed, & lien releases have been given.

When Valor is pouring a slab it's **IMPORTANT** to make sure that mesh-ups are installed so that the wire is **NOT** being pushed down.

Make **SURE** before you sign your contract that your contractor is licensed in the City, County & State!
VALOR IS!

Hair pins are **ANOTHER** feature that Valor offers to make sure foundations do **NOT** crack from the weight of the building.

The **WORST** thing that is often over-looked is Workmans Compensation & General Liability Insurance. If someone gets hurt or an accident happens.... **YOU COULD GET SUED!**

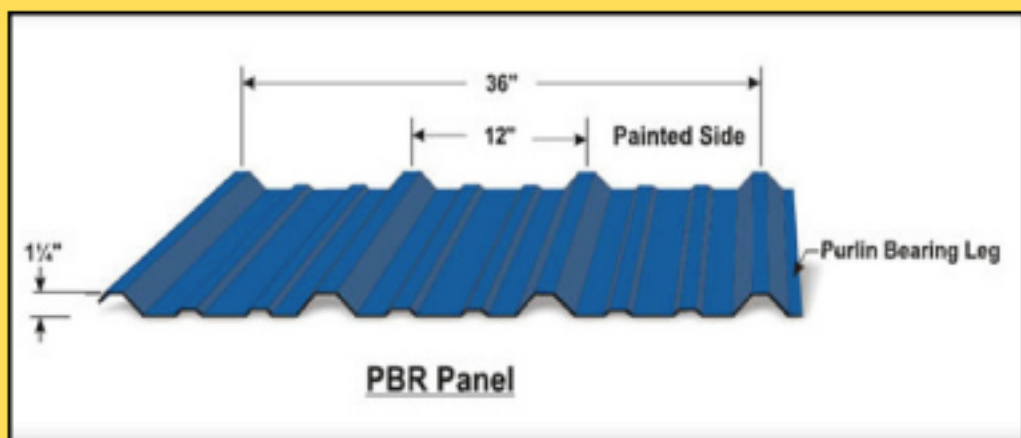

The **BEST** feature of Valor Steel Buildings is our employees! Valor takes pride in a **JOB WELL DONE!**

Call your permit office for the legal ramifications! If something goes wrong on **YOUR** project, **YOU** the customer are now responsible! Let Valor pull your permit and be responsible. Valor crews take **PRIDE** in their work & making sure that you are pleased!

Setting the Standard ON THE GULF COAST

A Valor roof **ALWAYS** comes with a PBR panel for **EASY** installation.

Why is Valor doing so well? **64%** of our **NEW** customers are from recommendations from our **EXISTING** customers.

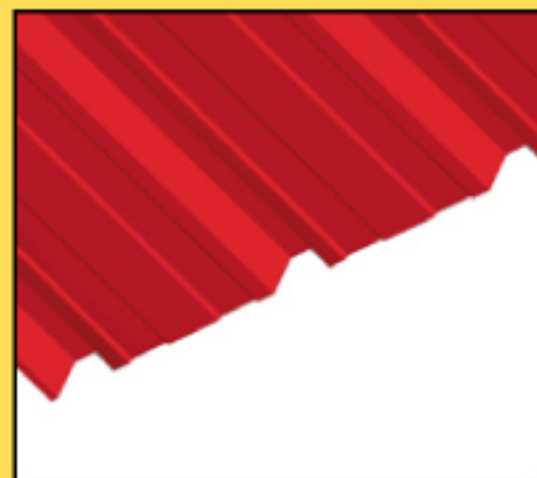

To **PREVENT** leaks, Valor offers tape seal on the roofs of their buildings.

Valor provides **19** beautiful colors to choose from! All come with an industry leading **40** year warranty!

Valor palletizes & shrink wraps **ALL** the bolts & screws for **EASY** loading & prevention of loss during transit.

Valor provides a **VARIETY** of 4 panel corrugations to choose from.

Wouldn't it be **GREAT** to have an itemized quote so that you **KNOW** what you are paying for? Valor Steel Buildings provide just that!

Valor provides **FAST** time frames. You get same-day quotes & delivery of your building in 4-6 weeks.

Setting the Standard ON THE GULF COAST

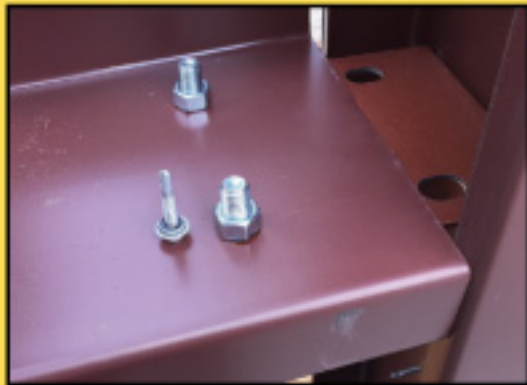

Valor is the **ONLY** metal building company in MS, AL & FL that is a Manufacturer **AND** General Contractor.

Valor rafters are bolted down to the **TOP** of the column, creating a stronger connection.

Valor installs a brush guard to close the gap at the top of the roll-up door. This helps to **PREVENT** birds & insects from entering.

ALL Valor framed openings are bolted, **NOT** screwed.

Valor uses a corner box that **CLOSES** up the gable/rake trim. This helps prevent birds from nesting. Gutters can also be installed.

Valor installs casing trim for beautification, **AND** to prevent the framed opening from rusting.

Valor uses eave trim for beautification at **NO EXTRA COST** when gutters are not applied.

Valor installs base trim for beautification, to prevent rusting, **AND** to avoid losing panel warranties.

Valor is the **ONLY** company that provides warranties on framing, panels, trim, insulation, labor, roll-up doors, walk-in doors & screws.

Setting the Standard ON THE GULF COAST

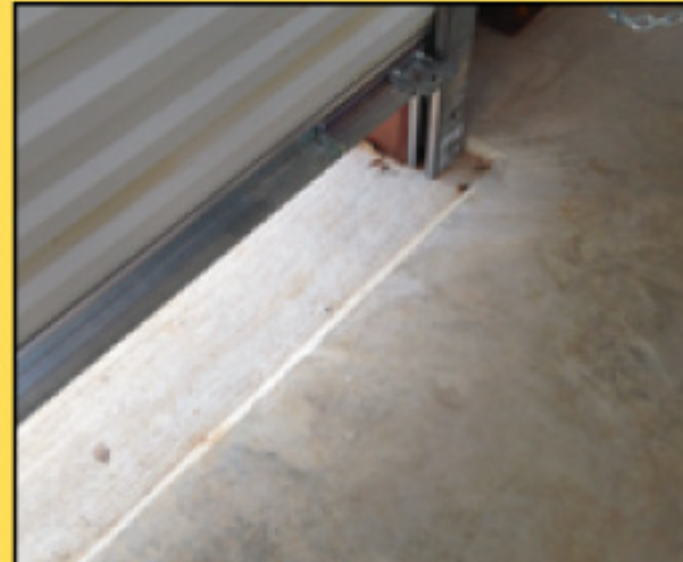

Valor Steel Buildings provides a 7-Point inspection on our slabs that go **ABOVE & BEYOND** what the city/county inspection provide.

Corner Blind Plates are installed in Valor Steel Buildings to **PREVENT** daylight from shining through to the inside of your building.

Valor Steel Buildings provides a 7-Point building inspection that goes **ABOVE & BEYOND** the city/county permit office requirements.

Valor forms a notch out in the concrete so the roll-up door can sit down **BELOW** the top of the concrete. This helps prevent water & insects from entering your building.

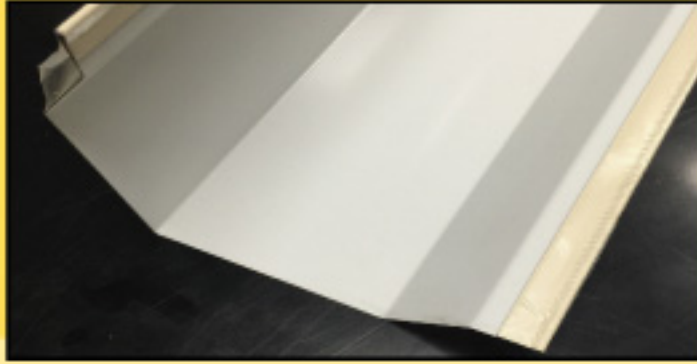

Eave strut blind plates are installed in Valor Steel Buildings to **AVOID** daylight shining through to the inside of your building.

Valor Steel Buildings uses **BOLTS**, not screws, to install their walk-in doors.

Setting the Standard ON THE GULF COAST

Valor **FOLDS** its trim to prevent the installer from being cut & so that the trim is not wavy after it's installed.

Valor **ONLY** builds with structural I-BEAMS, which is the best & strongest framing. Tapered systems are weaker plates, half-welded, to form a cheaper system with less steel.

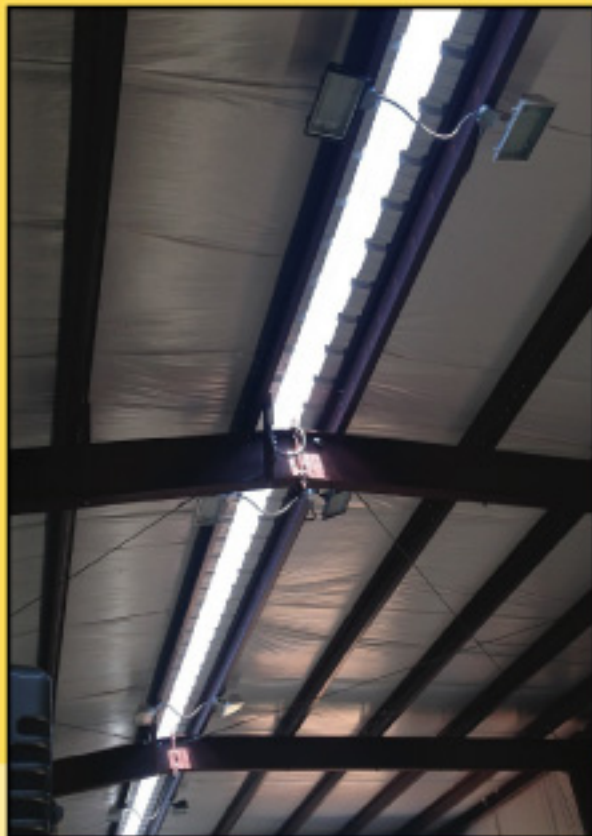

Panels & Framing come blocked and banded for protection while in transit to your job-site so that your product arrives **PERFECT!**

Valor trim comes with a strippable film to **PROTECT** the trim from being scratched.

No hands needed when you open a Valor Steel Building door. We use lever locks to make it **EASY!**

Ridge Lights are a **FREE** option so you can see immediately when you walk into your building.

Come see where your building is manufactured in **BEAUTIFUL DAPHNE, AL!**

Valor trim is placed in a trim box so that the trim is **PROTECTED** until used.
